

BoardNet

Your meeting management solution

Empower your board members with a collaborative tool that helps them make timely decisions

Make unproductive meetings a thing of the past with BoardNet from CareTech Solutions. BoardNet provides your committee members with the most secure and up-to-date information no matter where they are. All they need is an Internet connection and a laptop, tablet or smartphone.

Available on the iPad

App Store

BoardNet eliminates the costs and inefficiencies associated with printing and disseminating board books, replacing them with an easy-to-use system that delivers role-based access with a high degree of functionality.

BoardNet Features:

- Meeting Management
- Building Board Books
- Document Library
- Member Directory
- Forum
- Surveys
- Calendar and Events
- Announcements
- Keyword Search
- News
- Usage History
- Administrative Tools
- My Profile / My Files

It also includes:

- Unlimited users and committees per hospital
- 24x7x365 user support
- Hosting services available

“Prior to having BoardNet, the approximate time it took me to prepare board packets (copies, sorting, stuffing envelopes, mailing, etc.) typically took me approximately 3 hours. Most months I'd enlist the help of others to get this lengthy project completed. Now, I am literally done within less than 10 minutes. I have zero complaints from anyone who has access to any of the reports. They have all admired how user-friendly the product is.”

Jeanette Martinez
Executive Assistant
San Luis Valley Health

A secure, online “virtual boardroom” that gives committee members access to board materials... anytime, anywhere

Why limit your meeting to just four walls?

CareTech developed BoardNet to address the unique challenges faced by hospitals and their boards. Whether across the country or in the same room, you can be sure that your members will have access to all the information they need to make critical decisions. All content is encrypted and stored in a Tier 3, AHA-endorsed data center that meets all compliance requirements and is supported by a 24x7x365 help desk.
