

WebServices

We go beyond giving you a website
we improve your patient's digital journey

In an era of unpredictable disruptions, digital healthcare is transforming the way patients are treated. Your website should enable your potential patients, physicians, and staff to reach out easily. Therefore, what your web site conveys to them is important.

CareTech Solutions (CareTech) provides a complete range of Web Services that enable hospitals / healthcare providers to maximize their online presence. We help you engage better with your patients and provide a better work experience for everyone from the top management to physicians and staff.

CareTech was created by hospitals, for hospitals. We understand the complex regulatory and care challenges of your day-to-day operations. To meet your unique needs and budget, we customize each solution from our Web Services.

CARETECH'S WEB SERVICES INCLUDE:

Content Management Services

Contextualized content for seamless web interactions and ultimate web experience

Engage patients better and deliver the right insights

Web Consulting Services

Get the most out of your site and more with CareTech's **Web Consulting Services**, a group of complementary offerings designed to maximize your site traffic (SEO Advisory Services) and deliver a better user experience for your patients and staff (UX/UI, Information Architecture). You're sure to provide a secure (Website Assessment) interactive experience no matter where they are or what device they use (Custom Mobile and Application Development).

BoardNet™

With CareTech's BoardNet™, you'll be able to get the most out of your meetings, providing up-to-date, rolebased access to data. No matter where they are, your board or committee will be able to make informed decisions regardless of what device they're using.
