

6 Top Benefits to a CIO of Pulse IT Monitoring Service

Trying to stay ahead of performance issues that impact service delivery while running an IT environment that users can have confidence in? CareTech Solutions' Pulse IT Monitoring Service can help you give users a reliable and predictable IT experience all day – every day. Here's how:

1. **Reduce** time to recovery
2. **Assist** in managing infrastructure processes and inventory
3. **Implement** consistent processes
4. **Free up** core staff for their regular duties
5. **Quantify** application performance and availability
6. **Enhance** end-user experience/customer satisfaction

Pulse gives you visibility into your network, applications and infrastructure to help you proactively address IT issues that cause user frustration and may put patient care at risk.

CareTech Solutions is leading the path in innovative information technology and end-user interface services for U.S. hospitals and health systems. The company helps healthcare organizations leverage emerging digital technologies to improve the quality of healthcare delivery and clinical outcomes. **For more information call us at (877) 700-8324 or visit our website at www.caretech.com.**
