

Start with a Self-Assessment

Is your data at risk?

- Is your historical patient data stored on outdated servers that can no longer be updated or supported?
- Are you paying exorbitant maintenance fees to keep legacy systems running?
- Do you worry that your legacy hardware will fail while you still need the patient data it houses?
- Are your clinicians frustrated with accessing multiple systems to obtain historical patient information?

Legacy decommissioning is a major challenge in today's healthcare IT environment. Through iDoc™ Archive, CareTech Solutions offers an affordable, secure, reliable way to store and access historical patient data.

CareTech Solutions is an IT and Web products and services provider for U.S. hospitals and health systems. We create value for clients through customized IT solutions that contribute to improving the patient experience while lowering healthcare costs.

 CareTech Solutions is leading the path in innovative information technology and end-user interface services for U.S. hospitals and health systems. The company helps healthcare organizations leverage emerging digital technologies to improve the quality of healthcare delivery and clinical outcomes. **For more information call us at (877) 700-8324 or visit our website at www.caretech.com.**
