

7 Questions to Ask Data Storage Vendors

Does your legacy decommissioning system for historical patient data offer this functionality?

- Can your archive solution provide a single-click, read-only Web-based document/data access?
- Can your archive solution provide intuitive document viewing tools and full functionality (search, print, fax, email and export)?
- Can your archive solution be configured with an unlimited number of permission sets for specific access/viewing?
- Can your archive solution organize documentation by folder and report type to fit all of your needs?
- Can your archive solution provide a detailed and full audit trail for reporting?
- Can your archive solution store data, text and image formats from multiple systems?
- Can your archive solution provide storage in a secure, Tier 3, AHA-endorsed data center?

iDoc™ Archive – the legacy decommissioning solution from CareTech Solutions— offers all of this functionality and more.

CareTech Solutions is an IT and Web products and services provider for U.S. hospitals and health systems. We create value for clients through customized IT solutions that contribute to improving the patient experience while lowering healthcare costs.

 CareTech Solutions is leading the path in innovative information technology and end-user interface services for U.S. hospitals and health systems. The company helps healthcare organizations leverage emerging digital technologies to improve the quality of healthcare delivery and clinical outcomes. **For more information call us at (877) 700-8324 or visit our website at www.caretech.com.**
